

MULTI PURPOSE

Team Up

Team Up is a clever multi-purpose seating range comprising of four different models, including a stacking chair. The range has been designed to suit different areas throughout the workplace.

Options include a low or high back, two arm versions and three different frames. Seat shells can be specified as oak veneer or HPL and combined with upholstered seat and back pads. Designed by Jason Lansdale.

FEATURES AND OPTIONS

- All seat shells are oak veneer or white HPL as standard (other options available on request)
- Low back seat shell or with back extension
- All chairs have a plywood edge detail
- Upholstery options: seat pad, seat and back pad or fully upholstered
- Polished chrome tube arm or veneer/HPL arm option
- Veneer/HPL arms can be fitted with upholstery pads or be fully upholstered
- Alternative finishes for skid frames and tube arms only: white and yellow powder coating (other colour options on request)
- Memory return swivel pedestal and swivel recline base are polished chrome as standard
