

Elements Plus

panels only

Flexibility is key – Elements Plus offers retro fitted acoustic panels as an upgrade to Elements Core to create more private spaces in open areas. The fully upholstered panels are fitted to Elements Core units and then connected with zips which makes them easy to install and reconfigure. Seams on the panels allow for the use of different fabrics. Through upholstery and wadding the panels offer acoustic qualities for meetings with colleagues or simply to relax.

FEATURES AND OPTIONS

- Fully upholstered acoustic panels
- Five back panels for single, double and sofa; connected with zips on both sides
- Three arm panels, including two finishing panels; connected with zip only on one side
- One booth panel; not connected to Core unit, connected with zips on both sides
- One media panel; not connected to Core unit, connected with zips on both sides, ready for electrical fittings
- Panels are fitted to Element Core units
- Fitting in the Core units are standard and are hidden under the fabric which means that Plus panels can be easily retro fitted
- Panels are connected with Zips for stability
- Seams on the panels allows for use of different fabrics
- High back panels can be taken off for reconfiguration (fittings in the Core can be covered with caps)
- Linking for the core units will be supplied at no extra cost, to ensure stability
