

FLEXI

Product Overview

The Flexi range offers a slimline frame with a double upright cantilever leg. The range has been designed and engineered to offer a robust and durable solution. The leg frames are supported by an MFC modesty panel, integral to the structural integrity of the range. Vertical leg risers are compatible with the range to accommodate cables from the floor to the underside of the work surface. An optional horizontal cable tray can be positioned to the inside or outside of the modesty panel. This tray caters for cables under the work surface and access to the desktop via cable ports.

A comprehensive range of desk mounted screens are compatible with Flexi workstations. In addition, a full range of accessories are compatible including monitor arms, CPU holders, and desktop electrics.

FLEXI
