

**HAPPY
ROCKER**

Happy Rocker delivers healthy movement. Encourages relaxation and reflection. And puts a smile on your face.

The birch ply frame, veneered in oak as standard, combines sustainability with immense strength. You can choose other facing veneers if you like, from our wide selection.

Create the character you want. Combine your choice of fabric with a gently humorous emoji on the backrest, or stay conservative with simple buttons — or just plain.

Happy Rocker — for happier days.
