TECHNICAL DESKS

FINISHES

DIMENSIONS

*Structutex® - MFC: Melamine Surfaced Particleboards covered with a coating imitating a wood species, or plain. Counterbalanced and anti-reflection treated. Density 680 Kg/m³ (± 5%) in thickness 25 mm.

STRUCTURAL ELEMENTS

GENERAL DESCRIPTION

- Material: Structorex® - MFC*
- 2 mm thick ABS shock-resistant edging
- 16 mm thick except table top, 25 mm thick

TABLE TOP

- Electrification: the tray is equipped with 2 80 mm diameter cable sleeves, standard Aluminium finish allowing the passage of cables from the tray to the floor via integrated boxes
- Dimensions: L180 / P80 cm

MODESTY PANEL

- The modesty panel is structural
- Dimensions: W90 / H30 cm
- Assembly: the modesty panel is positioned between the two boxes and affixed by eccentric clamping bolts

BASE FRAME

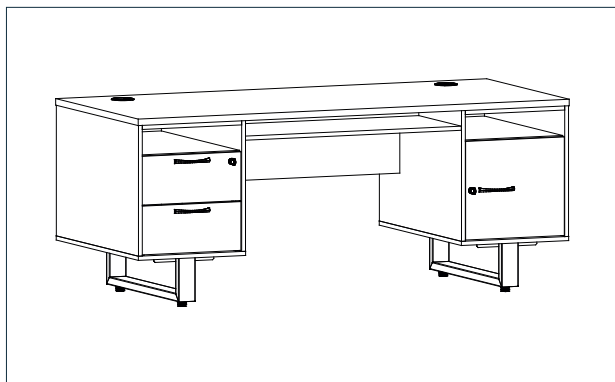

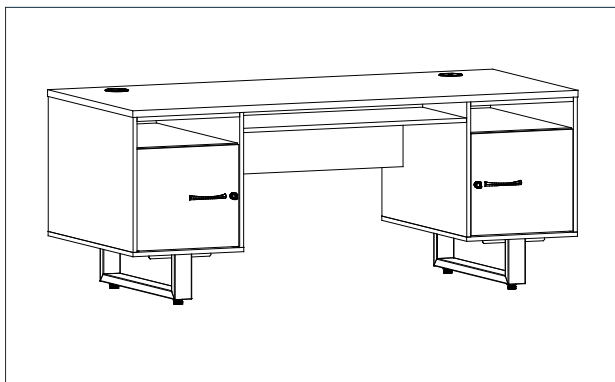

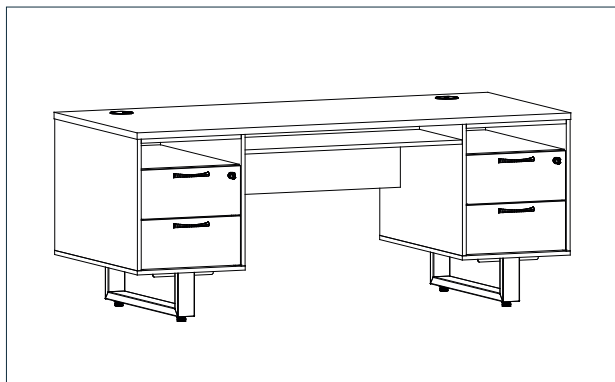

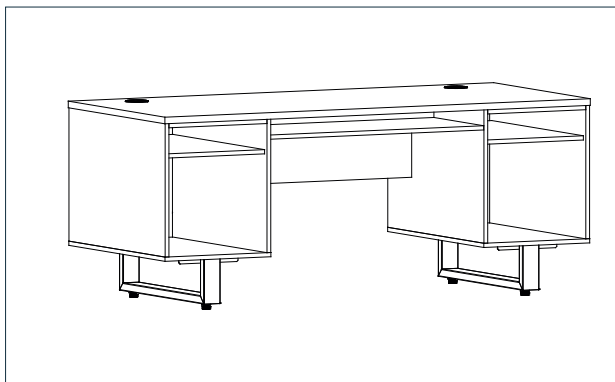

- Metal half-ribbon leg with support plate
- Dimensions: W7 / D70 / H19.5 cm (cylinders included)
- Material: steel metal with epoxy lacquered finish matte black or white
- Type: welded tube, 70 x 30 mm cross-section
- Adjusted using stabilisation cylinders with 30 mm diameter and 10 mm stroke to provide levelling on uneven ground

SHELF

- Dimensions: W90 / P60 cm
- Movable shelf that can be taken out during assembly if the desk user is tall
- Stop piece inserted between the shelf and tray so that documents do not end up at the back of the shelf and can no longer be reached

BOX

- Dimensions: W45 / H52 / D79.5 cm
- Equipped with an upper niche with usable dimensions W41.5 / P75 / H 10 cm created from a fixed shelf integrated into the box
- This shelf and the bottom of the box are equipped with a plug for cable routing inside the box.
- Customisable box with 2 drawers or 1 hinged door on the lower niche of usable size W41.5 / H37 / D76 cm
- In the hinged door version, an additional shelf can be added. It is adjustable over 3 levels in 9 cm intervals
- The flat drawers have following usable dimensions: W33 / H7.5 / D47.5 cm

*Structorex® - MFC: Melamine Surfaced Particleboards covered with a coating imitating a wood species, or plain. Counterbalanced and anti-reflection treated. Density 680 Kg/m³ (± 5%) in thickness 25 mm.
