jensen-up

Jensen-up affords privacy in the modern business workplace, an oasis of calm in an otherwise active environment.

Based on the popular jensen soft seating sofa, the jensen-up combines an acoustic surround with a two seater sofa to suit a new way of working.

With fine attention to detail, the acoustic, high-backed, jensen-up provides an ideal place for relaxing breaks, or casual and comfortable meetings, protected from the general hub-bub and distraction of background noise.
