# Ad-Lib Conference

With the development of the Ad-Lib family we set out to redefine the genre of multi-purpose seating as we recognised changing needs. The family shares the identical seat and back structure that carries the anatomically formed seat and back plates and provides the foundation of the range. The conference version with its four star base is seen as a boardroom or meeting chair. The inclusion of the dynamic yoke incorporates a free floating tilt action and seat height adjustment which enhances the ergonomic performance of this chair.

The diversity of finish specification options together with the upholstery options give Ad-Lib a truly varied palette.

Design by PearsonLloyd

Standard Features (\*Selected models only)

Two piece moulded seat and back frame Moulded seat foam with an integrated

flexible seat membrane \* Back frame with integral arms in a soft touch plastic \*

Injection moulded, contoured seat and back panels \*

Injection moulded, contoured back panel and upholstered seat \*

Fully upholstered seat and back \*

Dynamic yoke, incorporating seat tilt and height adjustment

Die-cast aluminium base

Plastic glide with brushed aluminium housing

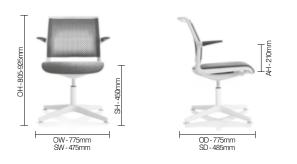

#### **Optional Features**

Memory return unit (fixed yoke only) Flexible back panel\* Two-tone upholstery\*

#### Performance Standards

EN13761:2002-4 ANSI/BIFMA X5:1:2011 SCS-EC10.2-2007 Indoor Air Quality EN15373:2007-L2 GS Certificate

## DIMENSIONS

### DESIGN PearsonLloyd

The London based practice takes a collaborative approach to its work, embracing the restrictions imposed by production, the market and all the other factors that define a brief. Their work is grounded in research and at the core is an

attempt to understand the relationship between a product, its place, and the way people use it. It is this innovative thinking that earned PearsonLloyd a Red Dot Award for the design of Ad-Lib for Senator.

### **ENVIRONMENTAL**

#### **Material Content**

Components are constructed of the following

	50%
Fabric	
	50%
Steel	
	100%

**Aluminium Castings** 

#### **Recycled Content**

Contains up to 19.5% of Recycled Material

	1.5%
Fabric	
	10%
Steel	
	8%
Aluminium Castings	

#### Recyclability

The range is 100% recyclable

100%

### **SENATOR 3 R'S**

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually

the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**. -Reduce -Reuse -Recycle
