

**KASSINI** Fixed and Sit/Sit Height Adjustable

**Product Overview**

The Kassini range offers a myriad of footprints to suit the demands of the majority of applications. Each option fully utilises the unique wire management solution. Leg risers within the leg upright can be removed to enable cables to be routed vertically within the leg channel and directed into the modesty panel or wire management beam to discreetly house cables and wires. Power and data modules can easily be mounted at any position along the cable beams offering maximum flexibility for complex cable installations. The height adjustable workstations offer adjustment from 650mm to 850mm via a manual rotating handle that can be discreetly retracted within the frame, when not in use. The unique design of Kassini and the minimal number of components required, ensures a swift and efficient assembly process, reducing installation costs. Due to the nature of aluminium, Kassini offers an environmentally friendly solution as the lightweight frame can be re-cycled at the end of its life cycle.

A comprehensive range of desk mounted screens are compatible with Kassini workstations enabling workspaces to be separated and private. In addition, a full range of accessories are compatible including monitor arms, CPU holders, and desktop electrics.

# KASSINI

## Sit/Sit Height Adjustable Workstations

Metal: Silver RAL 9006 (Standard), Black Graphite, White RAL 9003  
MFC: Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Laurentii Wenge, Natural Nebraska Oak, Grey Nebraska Oak, White
