

# Luxurious Simplicity

## Lux, the next generation bench workstations

Central to its design is the creation of an elegant, contemporary bench with tapered wooden legs and a cleverly engineered steel sub frame. Lux provides the perfect solution for a less corporate, modern office, dining, conference or breakout area. The range is available in a number of sizes, providing a flexible product for many working spaces.

Your choice of wooden leg finishes can offer peace of mind by knowing that all our timber and mfc is sourced from sustainably managed forests, assured by our PEFC certification.

A colour co-ordinated unobtrusive steel sub frame provides all the stability required to ensure a totally rigid workstation capable of offering generous working widths of up to 2800mm.
