Product Overview

Central to its design is the creation of an elegant, contemporary bench with tapered wooden legs and a cleverly engineered steel sub frame. Lux provides the perfect solution for a less corporate, modern office, dining, conference or breakout area. The range is available in a number of sizes, shapes and wood finishes providing a flexible product for many working spaces.

How to Specify Lux Benches

Lux double benches can be combined to allow for any number of positions required in a single run. Simply specify from the below text for what is required.

A - 1 Piece Top

To accommodate 2-4 positions specify 1x 'Lux Double Bench' on page 000 only.

B - 2 Piece Top

To accommodate 4-8 positions specify 1x 'Lux Combined Double Bench' on page 000 only.

C - 3+ Piece Top

To accommodate 6-12+ positions a combination of Lux products will be required.

For the initial 4-8 positions specify 1x 'Lux Combined Double Bench' on page 000.

For subsequent positions in 2-4 increments, specify 'Lux Combined Double Bench with Shared Leg' on page 000.

To add radius corners to the run of benches, simply suffix /RC to either the 'Lux Double Bench' or the 'Lux Combined Double Bench'. The radius corners do not apply to the 'Combined Double Bench with Shared Leg' as they will always be used in the middle of a run.
