Handles locking / unlocking the trays

Optional Top Access hatch

Optional power outlets

TECHNICAL DESCRIPTION

- Tops made of 25 mm thick Structutex® melamine-coated panels. 2 mm thick shock-proof ABS edging.
- Cable management : 2 round part drilled cable ports and 1 rectangular part drilled cable port in the centre for single Top Access hatch under the tops.
- Metal structure composed of 2 legs (1 column of rectangular cross-section 70 x 30 mm and steel plate base 45 x 5 mm) and Ø 75 mm castors with brakes. The assembly is connected by a central extendable steel beam for perfect stability, lacquered epoxy finish.
- The tops are extremely easy to tilt using the locking/unlocking handles.
- The vertical and horizontal positions are secured by a locking system which is unlocked by using the handles.
- The tilting system with pivoting axes is welded to the beam and screwed under the top.
- Suspended modesty panels available on option made of 16 mm thick Structutex® melamine-coated panels with 2 mm thick shock-proof ABS edging.
- 4 black connectors included for each table, to join tables together perfectly side by side.
- The tables are stored by nesting the legs together in order to save space : 19,5 cm per extra table in depth in addition to the size of the 1st folded table (D 60 / D 70 cm).
